What is SYNTRA TV?

A dark-themed, Netflix-quality entertainment home screen that brings every content source into one place.

The SYNTRA TV home screen, with the SYNTRA Hub — the same device that also powers the smart-home side of the ecosystem — sitting quietly on the console below.

“كل الترفيه. كل التحكم. تجربة واحدة متكاملة”

“Entertainment like never before. Control everything effortlessly.”

SYNTRA TV organizes live channels, on-demand movies and series, apps, games, and smart-home control behind one dark, distraction-free interface — navigable in Arabic and English, and voice-controlled through SYNA.

What it does for the household

Every claim below is a feature already shown on SYNTRA's own marketing material — not a roadmap item.

A world of content

عالم من المحتوى

Movies, series, live channels, and favorite streaming apps — YouTube, Netflix, Disney+, Prime Video, Apple TV, Spotify, SHAHID — in one place.

Cinematic quality

جودة سينمائية

4K Ultra HD with HDR10+ and immersive surround sound.

Your home within reach

المنازل في متناولك

Full control of connected smart-home devices directly from the TV screen.

Smart voice assistant

مساعد صوتي ذكي

Natural voice control through SYNA, supporting Arabic and English.

Privacy & security

خصوصية وأمان

Full data protection with complete privacy control.

SPECIFICATIONS

4K ULTRA HD

HDR 10+

DOLBY VISION · ATMOS

WI-FI 6

"كل ما تحبه.. في مكان واحد"

"Everything you love.. in one place" — SYNTRA TV's own closing line, and its six pillars.

Live — Arabic and international channels in high quality.

Movies & Series — the latest titles on demand, without intrusive ads.

Games — cloud gaming, seamless on the big screen.

Apps — every favorite app, ready to install and use.

Smart Home — lighting, climate, security, and cameras, controlled from the TV.

AI — smart recommendations, voice search, and a personalized experience.

BUILT TO CONNECT

SYNTRA TV is never a standalone box. It runs on the same SYNTRA Hub that anchors SYNTRA Smart Home, shares the same SYNA voice assistant, and sits inside the same SYNTRA account — so a household's entertainment and its home are one system, not two apps.
